REVENUE.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 5th June 1893.

No. 20571-8—R. 2469, DATED, BANGALORE, 5TH JUNE 1893.

ORDER.—The Government of His Highness the Maharaja of Mysore resolve to issue the following Notification;—

NOTIFICATION.

No. 20579—R. 2470.

The Government of His Highness the Maharaja are pleased to direct that the following addition be made to para 24, Rule XX of the Revenue Rules issued under Government Notification No. 150 dated 22nd July 1890, and also to para 8, Appendix E alluded to in Rule XXVIII, para 1 of the said Rules.—

"In default of payment within the prescribed period of the full amount of purchase money, the deposit after defraying thereout the expense of the sale, shall be forfeited to Government, and the property shall be resold, and the defaulting purchaser shall forfeit all claim to the property or to any part of the sum for which it may be subsequently sold, provided that in any case in which the enforcement of this condition may involve under hardship, it shall be competent to the Deputy Commissioner to submit the necessary recommendation for the order of Government.

"If the proceeds of the sale, which is eventually made, be less than the price bid by such defaulting purchaser, the difference shall be recoverable from him by the Deputy Commissioner as an arrear of land revenue."

4. The total amount of Judicial Deposits held in the several Courts of the Mysore District at the end of the quarter was Rs. 29,577 and not Rs. 27,865, as shown in the statement submitted by the Deputy Commissioner. Correct statements should in future be submitted with a grand total at the end of the statement and totals at the end of each page for facility of check and correction where necessary.

5. As existing deposits are still large the Chief Court will be requested to instruct all the Judges to see that monies are not kept in deposit longer than absolutely necessary.

6. In preparing the statements of Judicial Deposits, Treasury officers of Districts excepting Bangalore, Shimoga and Tumkur, will be instructed to mention the names of the Courts concerned instead of the District or Taluk Treasury in which monies are deposited.

The following D. O Letter, dated 14th June 1893, from the Deputy Commissioner, Mysore District —

With reference to para 1 of Government Proceedings No 20296-305—R. F. 17-92, dated 1st May 1893, I beg to submit that under clause (c), para 12 of the Government Proceedings of the 12th April 1892, Toddy Inspectors were appointed for the 4 Taluks noted in the margin on Rs. 20+10. Some of them were men drawing Rs. 20 already. When the Excise Commissioner asked me for fresh proposals in July 1892, I suggested that no revision of the establishment was then necessary and some time might be allowed for gaining experience of the existing establishment. But his proposals were accepted and passed by Government in their Proceedings of the 16th February 1893. In these proposals the pay of the 4 Toddy Inspectors, above referred to, was reduced to Rs 15+10. To revert them would upset arrangements made with great care and trouble over a year before and necessitate the travelling backwards and forwards of a number of low paid officials. It was for this reason that I recommended in my letter of the 11th April 1893, for leaving their pay undisturbed and proposed to reduce one 2nd grade Toddy Inspector to prevent increase in the amount sanctioned.

Seringapatam,
Malvalli,
T.-Narsipur and
Heggaddevankote.

The Excise Commissioner also sent it up to Government with his support. The reduction however of one Inspector was ordered, but the request that the pay of the 4 Inspectors might be allowed to remain at Rs. 20+10 was negatived with the remark that "it is premature to consider increase to pay of Toddy Inspectors."

I beg to submit that I did not recommend a new increase I should not have ventured to make any proposal to alter the scale fixed by Government, except under pressing necessity and unless I thought that the circumstances justified my recommendation. I beg that this part of the Government order may, if possible, be reconsidered, with effect from date of Proceedings of the 16th February. I venture to submit this D. O. direct as to address officially will take time and already a great delay has occurred in giving effect to the orders of Government for increasing the establishment and it cannot be done till this point is settled.

CAMP No. 374-6, DATED, MYSORE, 17TH JUNE 1893.

ORDER THEREON.—It was not intended to reduce the pay of any Toddy Inspector already entertained. Therefore, and under the circumstances now more fully explained by the Deputy Commissioner in his letter read above, Government are pleased to sanction that the Establishment of Toddy Inspectors for the

Mysore District shall be as follows in supersession of that sanctioned in Government Proceedings No. 13672-81—R. F. 17-92, dated 16th February 1893 :—

Taluks.	
1. Tirumakudlu-Narsipur.	One Inspector on Rs 20+10 each
2. Seringapatam	
3. Yedatore.	
4. Heggaddevankote

1. Mysore.	Two Inspectors, each on Rs 20+10 and Rs. 15+10 respectively.

Correspondence ending with Mysore Deputy Commissioner's letter No. 1275, dated 17th April 1893, regarding the enforcement of the orders of 1870 prohibiting cultivation within 10 feet from the base of the tank bunds.

No. 21-430-39—R. F. 183-92, DATED, BANGALORE, 18TH JUNE 1893.

ORDER THEREON.—In Government Proceedings Camp No. 323—32, dated 4th May 1888, the attention of the Superintendent, Mysore Revenue Survey, and of Deputy Commissioners of Districts, was invited to the orders noted in the margin, the 1st being re-published together with certain rules for public information, and Deputy Commissioners were requested to submit a full report of the action which might be taken.

1. Order, dated 6th June 1870, in the Public Works Department.
2. Proceedings No 7208—R. 531, dated 31st March 1871, para 3.
3. Do No. 4877—R. 33, dated 6th October 1874, para 5.
4. Do No. 6533—R. 415, dated 5th December 1874.

2. The reports received show that generally speaking no action was called for in the Taluks surveyed after June 1870, and that in the other Taluks no considerable progress was made owing to practical difficulties encountered in the field. These have formed the subject of discussion between the Public Works and the Survey Departments. At the Dasara Assembly of 1890, the hardship of a strict enforcement of the rules in the case of garden lands was brought to notice (*vide* Subject No. 24 in the Proceedings) and relief was promised.

3. After a careful consideration of the subject, Government consider that the rules contained in the following notification will meet all requirements, and prescribe them accordingly. They will be published in the Gazette for general information.

4. The Survey Superintendent is requested to submit a statement of the lands taken out of Patta lands under these rules, showing the area, assessment and estimated value of those lands.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 18th June 1893.

NOTIFICATION.

No. 21429—*R. F.* 183-92, *dated* 18*th June* 1893.

The Government of His Highness the Maharaja of Mysore are pleased to issue the following rules for the de-limitation of the margin of land to be kept uncultivated below the bunds of tanks. They are in supersession of all previous orders on the subject.

I. Below the bottom of rear slope of bunds of all *maidan* tanks, irrigating more than 20 acres of wet land, a margin, 10 feet wide, to be left uncultivated. The boundary line to be demarcated by the Revenue Survey Department, if not already done. Where the line has been wrongly laid down, (*i. e.*) without affording the full 10 feet margin prescribed, a new alignment is to be laid down by the same agency.

If, however, a distribution channel from a sluice runs along the toe of bund within the margin above described, cultivation will be allowed up to bund of this channel, irrespective of the specified margin.

II. Below small *maidan* tanks, irrigating 20 acres and less, the margin to be left is reduced to 5 feet, unless where a marginal demarcation of greater width has already been laid down and no cultivation exists within it. As under Rule I, a distribution channel running along the foot of bund will mark the marginal limit irrespective of its distance from the bund.

III. In all cases where within the limits above described, whether already demarcated or now to be marked, garden or fruit-bearing trees already exist, the removal of the same will not be insisted on until the trees have ceased to yield. When the trees have ceased bearing, they are to be cut down by the owners and no fresh planting will be allowed. The assessment on such intra-marginal lands will be gradually extinguished, and the measured areas excluded from the several pattas.

IV. The margin provided for tank bunds in Rule II, is also applicable to all river irrigation channels and to any feeder channels which may be specially notified by the Public Works Department as coming under this rule. The rule providing for the gradual extinction of the rights to gardens and fruit-bearing trees will also apply to the required margin below channels.

V. In the case of all *malnad* tanks irrigating less than 100 acres, the restrictions regarding limit of cultivation will be entirely withdrawn except that on no account will cultivation in any form be allowed on the rear slopes and any one cutting into such slopes to level the ground for purposes of watering will be prosecuted for mischief. In the case of *malnad* tanks irrigating 100 acres and upwards, Rule I shall apply in full.

VI. For the purpose of these Rules, the following Taluks will be treated as *malnad*:—

Shimoga District.—The Taluks of Tirthahalli, Sagar and Nagar and the Maganis of Sorab, Kyasanur, Chandragutti, Chittur, Shigga and Hechè in the Sorab Taluk and the Maganis of Belandur and Barur and the Danandur Village of the Danandur Magani in the Shikarpur Taluk.

Hassan District.—Byagadahalli, Maranahalli and Hanbal Hoblis of the Manjarabad Taluk.

Kadur District.—The Taluks of Koppa and Mudgere and the Maganis of Lingadahalli and Lakvalli in the Tarikere Taluk and of Vastara, Anur, Kadagalnad, Taladarnad, Aldur, Jagar, Siravasi and Lingenahalli in the Chikmagalur Taluk.

The following docket No. 43 of the 8th November 1892 from the Superintendent of Inam Settlements in Mysore :—

No. 16, Sheet No. 212 in Sunderpalya village, Bowringpet Taluk.

In submitting herewith the correspondence ending with Bowringpet Taluk Amildar's report No. 483—302 of the 11th ultimo together with a Memo of this office, has the honor to solicit the authority of Government to revise the Kodagi case* for the reasons assigned in the Memo.

MEMO.

1. *Vide* the correspondence ending with Bowringpet Taluk Amildar's report No. 483—302, dated 11th October 1892.

2. Kallavi Hanumantachar and others, Kodagi Inamdars of Doddakere Tank in Sunderpalya village, Bowringpet Taluk, complain that their forefathers had spent nearly 15 or 20 thousands of rupees for building the tank, and got the Kodagi Inam land noted in the margin which was resumed by the Deputy Commissioner in 1872, on the ground that the Kodagi Tank in question was brought by the Irrigation Department under the head of "Ramasagar Series' and an estimate of Rs. 5,000 for the repair of the tank was made, and that the Inamdars having been unable to undertake the heavy expenditure, were ordered to resign the Inam tenure and retain the Kodagi Inam land on the ¼th reduced assessment (after remitting ¼th assessment for Kodagi hakk). Accordingly they were enjoying the same on the favorable assessment until the survey settlement, when it was fully assessed without showing any consideration for the Kodagi right as was settled by the Deputy Commissioner, and that the Government has moreover collected from them proportionately a large amount of contribution at the time of repairing the tank, and pray, therefore, that their case may be dealt with under Government Proceedings No. 1261—37, dated 25th September 1888, confirming the Inam on ¾th or ½ assessment as the case may be.

	Extent.	Assessment.	Jodi.

As per survey	15— 26	91—0— 0	... ...

3. They also produced an original endorsement No 261, dated 9th February 1873, issued by the Deputy Commissioner of Kolar, granting their Kodagi Inam land on the reduced assessment of 7 annas per kudu (after remitting Re. 0—2—4 or ¼th of actual beriz) for the Kodagi right.

4. The Amildar of the Taluk reports that the parties were enjoying the concession shown by the Deputy Commissioners from 1872-73 till the Survey Settlement in which year alone the Kodagi land was fully assessed. He further reports that they have paid their share of contribution, Rs. 400, at the time the tank was repaired by Government, and that the tank is in good order.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 24th June 1893.

5 The Inam which is borne out by the Jari Inamti accounts of 1801 and 1833, was recorded as case No. 16 of the Inam Register (Sheet No. 212) and confirmed on ½ quit-rent by the late Inam Commissioner in 1871, but under the general order conveyed in Government Proceedings No. 9620—R. 43, dated 20th December 1876, the case was revised and the Kodagi Inam resumed in 1880 for the reasons stated in paras 2 and 4 above.

6. The Inam is valid under the Rules and would have been confirmed on ½ or ¼th quit-rent according as the circumstances of the case warranted, had it not been resigned as per the Deputy Commissioner's Order quoted in para 3. The Kodagidars were enjoying the concession shown by the Deputy Commissioner in the above mentioned order till the survey settlement and were paying their share of contribution for the repair of the tank which is reported to be in good order. Therefore the case is worthy of favorable consideration by Government

7. There is no reason to bring this case under the head of "Chauthayi Háth Lagvad Tank" as it does not come within its scope.

Letter No 1378, dated 7th April 1893, from the Chief Engineer, reporting that since the resumption of the Kodagi Inam in 1880, two sluices of the tank were repaired by the Public Works Department at a cost of Rs 409 in the year 1887.

No. 21618-21—R. F. 336-92, DATED, BANGALORE, 24TH JUNE 1893.

ORDER THEREON.—It is evident from the foregoing papers, that the ancestors of Kallavi Hanumantachar and other Kodagi Inamdars of the Doddakere Tank in the Sunderpalya village of the Bowringpet Taluk incurred heavy outlay in constructing the Doddakere Tank and were therefore in the enjoyment of the marginally noted land as Inam. This fact is borne out by the Jari Inamti accounts of 1801 and 1833, and the Inam also appears to have been recorded as Case No. 16 on the Inam Register and confirmed by the Inam Commissioner on ½ quit-rent in 1871. But in 1872, before the enfranchisement was carried into effect, the Inam was resumed owing to the failure on the part of the Inamdars to repair the tank, the cost of which was estimated at Rs. 5,000, and when the tank was repaired by the Public Works Department, the Inamdars were allowed to retain the Kodagi hakk on payment of three-fourths reduced assessment on the land. At the Survey the lands were fully assessed.

2. On this, the Inamdars preferred their complaint to the Inam Superintendent, who submits that the Inam being valid, would have been confirmed on half or one-fourth quit-rent according as the circumstances of the case warranted, had it not been for its resumption in 1872. Colonel Grant therefore solicits permission to revise the settlement as the case is worthy of favorable consideration.

3. Under these circumstances, Government are pleased to sanction the recommendation of the Inam Superintendent, and to direct that the Inam be confirmed on half assessment.

LOCAL BOARDS BRANCH—MUNICIPAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—Municipal),—dated 5th June 1893.

READ THE FOLLOWING PAPERS:—

Letter No. 291, dated 1st June 1893, from the President, City Municipal Commission Bangalore, to the Chief Secretary to the Government of Mysore.

In submitting herewith, the protest signed by Mr. Sambasiva Iyer and others, I have the honor to state that there were 16 present when I wanted to ascertain the sense of the meeting The Vice-President declined to vote as he thought that the objection was tantamount to a censure on the arrangement made by him. Eight were for not transacting business and 7, for transacting it. In the meantime it was represented by Mr. Sambasiva Iyer, the mover of the objection, that the question then under discussion, was not one for a division and that it was a question of order which the President had power to decide as Mr. Venkatasami Naidu still thinks and says in this letter. While the matter proceeded so far, Dr. Choksi came in, and soon after, Dr. McGann, who were of course for transacting the business. So it is not true that majority was for not transacting business. I agreed with Mr. Sambasiva Iyer, that the question was of order which I had power to decide and I decided it. It was after the arrival of Dr. Choksi and Dr. McGann. There were 10 against 8 for transacting business. Even if the number was a minority, that could not affect my decision which was based upon my reading of the Regulation. It is to be noted that 2 of the 7 gentlemen who retired after my decision have not signed this letter. I am very sorry that the gentlemen who differed did not think it due to the opinion of the members like Dr. McGann and Mr. Leonard who have sat on the Board for years, that such opinion deserved calmer consideration than what was suggested by the impulse of the moment. I have great respect for the opinion of gentlemen like Messrs. Sambasiva Iyer and Venkatasami Naidu and others. I can only say that I am surprised that they did not give to the question the sober and calm judgment, which my experience and the connection with the Municipality, naturally led me to expect of them.

2. Letter, dated 31st May 1893, to the President, City Municipal Board, Bangalore.

With regard to the Proceedings of the Board held this morning, we, the undersigned, question the legality of the further proceedings conducted by you after we left, for the following reasons —

That when the majority of the Commissioners present and voting decided that no business could be transacted for want of notice as prescribed in the Municipal Regulations, the resolution of the majority was ignored by your commencing the business after such resolution.

That seven of the Commissioners that left, left with your permission as they could not take part in the proceedings which the majority of the Board resolved to be illegal.

We request you will be good enough to submit this, our humble protest, to Government along with your proceedings.

A. SAMBASIVA IYER.

D. VENKATARAMAIYA.

H. RAMAIYA.

I sign this protest with the further remark that no meeting of any sort could have been held this morning, and the attempt to create a meeting by means of votes was itself irregular, as no Proposition could be placed before the Commissioners who formed no meeting.

31*st May* 1893. T. R. VENKATASAMI.

From its inception I considered the meeting as illegal and did not think that any business could be legally transacted In other respects I beg to concur with the above.

31*st May* 1893. S. SUBBA RAO.

Order.

The Vice-President published a notice in the Mysore Gazette on the 18th May that there would be a meeting of the Board on the 25th idem and with it he published a list of the subjects. On the 19th he published another notice to the effect that the meeting would be held not on the 25th but on the 31st idem. The latter notice was circulated to the members, but there was no issue of the Gazette on the 19th May and the Gazette appeared on the 25th May 1893. The notice was, however, published in the local newspapers on the 25th.

Section 18 of the Regulation says that "Notice of the business to be transacted at such meetings (Ordinary monthly meetings) shall be published in the Mysore Gazette and in one

or more of the local English and Vernacular newspapers respectively, published in Bangalore, at least 7 days before the meeting". Section 21 prescribes that "no business shall be brought before or transacted at any meeting other than the business specified in the notices given under Sections 18 and 20. (Section 20 is not in point)." It is objected that seven days' notice was not given in the Mysore Gazette and therefore the meeting is not competent to transact business. I overrule the objection. In the first place from the 25th to the 31st both days inclusive is 7 days Further as the Government has recently in interpreting Section 5 observed the Regulation was not drafted by professional draftsmen, in a Regulation deficient in drafting it is not so much to the letter as to the spirit we have to look to in interpreting the law. What could be the object of the Legislative? it is manifestly to give sufficient notice to the members, so that they may prepare themselves and arrange to attend the meeting. In the present case, the notice was published in the local papers more than 7 days previously, it was circulated among the members and if it was not seven days in the Mysore Gazette before the meeting, it only fell short of that time by a few hours. In the result the manifest intention of the Legislature is even more clearly fulfilled as the meeting is attended by an unusually large number 18 out of 22 members It is attended by the members now objecting: surely in their case want of notice cannot be urged. It is attended by Government servants and private gentlemen, men of business who put off their other work for the sake of the meeting. If no business should be transacted, no other meeting could be held for about 10 days, and it would involve a more obvious infringement of the very Section 18, which prescribes a meeting in every month, to-day being the last day of the month and no other meeting having been held during the month, I believe fulfil the intentions of the law by proceeding with the business, than by omitting to do it.

MIR SHUJAET ALI KHAN,

31st *May* 1893. *President.*

No. 20560—L. F. 432-92, DATED, BANGALORE, 5TH JUNE 1893.

ORDER THEREON.—Government consider that the President erred in allowing the meeting to proceed with the business of the day, in spite of the objection raised. The law requires that notice of the business to be transacted at an ordinary meeting, shall be published in the Mysore Gazette at least 7 days before the meeting, and in directing this publication, the object of the Legislature was probably not only to give due notice to the members of the Municipality, but also to the rate-payers, so that they might have time to communicate with their representatives on the Board. It cannot therefore be argued that the object of the Regulation was fulfilled by the individual notices given to the members more than seven days prior to the meeting.

2. The question having been put to the vote, and the majority of the members present, when the vote was taken, having voted against the legality of the meeting, the President should not have proceeded with the business of the day. Government however note that the question raised was certainly not one that could be settled by the votes of members, as, even if the majority of the members had voted in favor of the view taken by the President, the business transacted at the meeting might be held by a court of law to be illegal, and, as such, void.

3. The view taken by the President, that, inclusive of the date of publication and the date of meeting, there were seven days, and that consequently there was no violation of the law, is incorrect. The publication ought to be made clear seven days *before* the date fixed for the meeting.

4. It is, however, a matter for regret, that the members who took the right view of the law, did not content themselves with a formal protest against the President's decision, but left the meeting in a body. Government however trust that such scenes will not recur in the future, and that the whole body of Commissioners will co-operate heartily in carefully administering the Municipal revenues, with which they are entrusted, for the benefit and well-being of the townspeople.

Chief Secretary.

LOCAL BOARDS BRANCH—LOCAL FUNDS.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—Local Funds),—dated 5th June 1893.

READ:—

Letter from the Comptroller, dated 18th April 1893, No. 1356, enclosing Docket Nos. 1299 and 2777, dated 24th February and 18th March 1893, from the Deputy Commissioners of Bangalore and Hassan respectively, stating that it is impossible to furnish the statements of works in progress, in English, and requesting that they be directed to attend to the requisitions made upon them by his office in view to secure a uniformity of practice.

No. 19645-53—L. F. 408-92, DATED, BANGALORE, 5TH JUNE 1893.

ORDER THEREON.—The Deputy Commissioner of the Bangalore District explains that for want of proper English clerks in the offices of the minor Municipalities, the statements in question could not be prepared in English, while the Deputy Commissioner of Hassan adds that the preparation of these returns in English, which are received in Kanarese from the Municipalities themselves, entails much clerical work in the Local Fund Branch of the District office, which consists of only one clerk for doing both Municipal and Local Fund work.

2. Government consider that there should be in each Taluk at least one Clerk or Gumasta possessing a fair knowledge of English, but if there are none at present in any of the Taluks, Deputy Commissioners should remedy the defect by transfers from one Taluk to another or otherwise and in filling up future vacancies in Taluk establishments, the principle above laid down, should always be borne in mind.

3. Till the above arrangements are carried out, the Deputy Commissioners of Hassan and Bangalore are authorized to employ a temporary hand on a salary of Rs. 15 per mensem to assist the existing clerks in translating into English the accounts to be rendered to the Comptroller.

GENERAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 1st June 1893.

READ the following letter No. 69, dated 28th March 1893, from the Secretary to the Viceregal Reception Committee, Mysore, to the Chief Secretary to the Government of Mysore:—

I have the honor to submit the final report of the Committee appointed for making preparations for the reception of His Excellency the Viceroy at Mysore in November last.

2. The Committee was constituted by order of Government conveyed in Proceedings No. 19—27, dated 6th October 1892. It originally consisted of Mr. V. P. Madhava Row as President, and Messrs. A. Rangaswamy Iyengar, A. Narasim Iyengar, Rai Bahadur and E. R. Subbarayar as Members. Mr. C. Srinivasaiengar was subsequently added as a member of the Committee and appointed their Secretary by Proceedings of Government No. 47, dated 23rd October 1892.

3. The Committee held 13 regular meetings for the transaction of business besides several informal meetings. Copies of their Proceedings have, from time to time, been duly submitted to Government

4. The time at the disposal of the Committee was very short and the preparations had to be rapidly pushed through. Besides local talent, which was largely employed, artists were sent for from Tanjore and Madura.

5. For the prompt and satisfactory carrying out of the programme sketched out by the Committee, Sub-Committees were appointed composed of the following gentlemen:—

1. Mr. K. Muhammad Ali,
2. „ Basavalingappa,
3. „ Standish Lee,
4. „ E. R. Subbarayer,
5. Dr. Dobson,
6. Vice-President, Mysore Municipality,
7. Messrs. Knight and Amble Annaya Pandit and
8. Mr. A. Narasim Iyengar, B. A.

The Government is aware how zealously and with what intelligent interest the members of the several Sub-Committees have worked, in order to get things ready in time and to make the reception a success.

6. On the 22nd October last, the Government was pleased to place at the disposal of the Committee, a sum of Rs. 21,750 including the contribution of Rs. 6,000 given by the Mysore Municipality. As the estimate framed at the outset was greatly exceeded notwithstanding the exercise of every scrutiny that was possible under the circumstances, the Committee had to make an application for an additional grant of Rs. 10,000 which was sanctioned by order of Government No. 63, dated 3rd December 1892.

7. This total allotment of Rs. 31,750 does not include the sum of Rs. 2,327—6—4 spent by the Executive Engineer of the French Rocks Division on the improvement of road, &c., in the town of Seringapatam and which sum was formally brought into the Committee's accounts and adjusted by book transfer as per Chief Secretary's docket No. 11617—2439-92 of the 10th January last.

8. The Committee appointed Sundraraja Iyengar, Head Accountant, Deputy Commissioner's office, and Alasingra Char, Head Accountant, Sanitary Engineer's office, for the purpose of making a careful audit of the accounts connected with the Viceregal Reception. Their report, with its accompaniments, gives full information on all points and is herewith submitted in original.

9. The total expenditure under all heads was Rs. 33,965—3—5 as shown below:—

	Rs.	As.	P.
Five Pandals and 14 arches	10,250	10	7
Illumination	9,168	13	10
School galleries	1,498	11	3
Decorations	7,710	3	6
Entertainment	3,265	7	9
Miscellaneous (as detailed in the Auditor's Statement No. 8)	2,071	4	6
Total Rs.....	33,965	3	5

10. A sum of Rs. 2,215—3—5 was realized by the sale of such materials, cloths, flags, &c., as were not in the Committee's opinion fit for retention, to be used on similar occasions in

future. The sale was conducted mostly under the direct supervision of the President, Secretary and some of the members of Sub-Committees, and the prices realized were fairly good.

11. Articles of the probable value of 7,713—1—6 have been retained for use in future receptions. Auditors' Statement No. 12 not only gives a description of these articles, but also shows the names of the persons in whose charge they have been left. Acknowledgments have been obtained from the gentlemen responsible for the preservation of the articles in stock and secured in the Municipal office.

12. Deducting the sale proceeds and the value of stock, the net expenditure will be found to have amounted to Rs. 24,036—14—6.

13. In addition to the 14 arches put up by the Committee, the Railway authorities erected one in their premises while the Holayars of Dod-Holageri and Eerangere put up one each across the road in the proximity of their houses. Of these, the one on the Chattanahalli road deserves prominent mention.

14. The Committee were also successful to some extent in enlisting the sympathy and co-operation of owners and occupants of buildings in the matter of private illumination and decoration.

15. The Committee think it proper that they should record their opinion regarding certain items of the reception programme. It was brought to their notice that on several such previous occasions, a *Suggi* or harvest dance by Malnad Gowdas had been arranged for. Under the impression that it would be an interesting event not likely to cost much, the Committee provided for it in their programme and placed themselves in communication with the Deputy Commissioners of Kadur and Hassan. Two sets of dancers were thus obtained, but the performance proved somewhat disappointing, while the cost considerably exceeded the Committee's estimate. Auditors' Statement No. 7 shows that the Committee have had to pay Rs. 210 on account of travelling expenses, Rs. 778—1—2 on account of feeding charges and Rs. 622—8—0 on account of the value of presents made to the dancers by the Palace. The Committee would recommend that on future occasions, this dance be either altogether left out or got up at a cost under all heads not exceeding Rs. 300. To enable the cost being kept within this limit, the number of men composing the partly will have to be greatly reduced.

16. The Pandal built by the Madura artists was no doubt excellent of its kind and was greatly admired, but the Committee did not calculate that it would cost the very large sum of money that it did. The same observation applies to the horse fountain pavilion as well as to the dolls made by artists from Tanjore. The Committee further think that, with a well considered scheme of entertainment at the Town Hall in which two or three events suited to a large audience should find a place, the cost could be materially reduced.

17. With a view to prevent the waste incidental to all preparations started in a hurry and carried out against time, the Committee have taken the liberty of getting a few sketches of pandals and arches made by Sham Row, the Mysore artist. He has prepared them carefully and also given details of decoration with the approximate cost of each item. The Committee would recommend that these sketches be preserved in the Municipal office, and be referred to for guidance on similar occasions in future.

18. The Committee regret to have to mention here that the Police and Military arrangements on the first day, were not as satisfactory as they might have been and that consequently there was much avoidable confusion on a portion of the Viceregal route from the Railway Station to the Government House.

19. In conclusion, the Committee regret that owing to an unavoidable delay in collecting the sale proceeds and making certain small payments out of the same, this report could not be submitted earlier.

CAMP NO. 345-49, DATED, MYSORE, 1ST JUNE 1893.

ORDER THEREON.—The Government consider the net expenditure amounting to Rs. 28,579—8—3 as explained in the Report above recorded, to be fair, considering the importance of the occasion and the short time there was between the formation of the Committee and His Excellency the Viceroy's visit.

2. The arrangements made under the Committee's management and direction were highly satisfactory and the best thanks of the Government are due to Mr. V. P. Madhava Row, the President, and to the other members of the Committee, for their zeal and intelligent continuous attention to every detail connected with the Programme, which made the Viceregal Reception the unqualified success it has been. The methodical manner in which they have recorded the results of their operations cannot fail to be useful on similar future occasions.

(2) Letter No. 1987, dated 16th February 1893, from the Military Secretary, reporting on the above and stating that there was nothing irregular in the proceedings as remarked by the Comptroller, and that such advances have always been made and should continue to be made on his authority, as men are frequently sent on out-post and other duties and have therefore to be paid in advance, &c.

(3) Letter No. 5424, dated 24th April 1893, from the Comptroller, reporting on the Military Secretary's letter read above, and also the subsequent correspondence ending with his letter No. 5748, dated 8th May 1893

No. 20732-3—G. 5108, DATED, BANGALORE, 6TH JUNE 1893.

ORDER THEREON.—Government observe that the case of men sent on out-post duty is, as stated by the Comptroller, met by his Circular No. 1548, dated 20th April 1883, which permits a month's pay being advanced from the Treasuries on the responsibility of the Commanding Officer of the detachment, and that in like manner, the Military Secretary may be permitted to direct advances being made on other similar occasions to men of the Bayr and the Silhadar Force.

2. The objection taken, however, was to the payment of any money from the Treasury without due authority and not to disbursement of pay in the particular instance, if it could have been done from any funds already within the Military Secretary's possession or control.

3. For future guidance the following rule is prescribed.

"If the Military Secretary is of opinion that, owing to any holidays falling in the early part of a month, the pay of any portion of the troops for the previous month should be paid without the usual pre-audit, he may apply to the Comptroller for the issue of the necessary instructions to the Treasury or Treasuries concerned for the payment upon his requisition of any amount within the sanctioned monthly scale in force. The Comptroller will issue the necessary instructions accordingly."

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 15th June 1893.

READ THE FOLLOWING LETTER:—

From the Military Secretary to His Highness the Maharaja, to the Chief Secretary to the Dewan of Mysore, No. 2239, dated 8th April 1893.

With reference to para 2 of the Proceedings of Government No. 950-31 of the 14th September 1885, I have the honor to submit for the orders of Government, the enclosed Rolls containing the names of 5 men of the Silladar and 7 of the Barr Force, found by me physically unfit for the Military Service on other than strictly Medical grounds and to request that you will kindly obtain early sanction for their retirement.

2. The cause of their unfitness, &c, for the service is explained in the Rolls, and in which the Medical Officer's opinion is also noted.

3. The retention in the service of these men, as efficient soldiers, on full pay is simply a loss to Government as it deprives the force of an equal number of efficient men.

4 I notice that no provision, for pension, has been made for such men as are retired, without Medical certificates, under the orders of Government quoted above, and which no doubt was an omission

5. I beg, therefore, that all Officers and men who have completed service qualifying for pension and retired under the order referred to, may be granted the pension laid down in the Mysore Service Regulations, Article 362, paras I and II.

No. 20981-2—G. 5214, DATED, BANGALORE, 15TH JUNE 1893.

Observations.—The inconvenience of which Colonel Macintire complains—namely, a conflict of opinion between the Departmental head and the Medical Officer, as to a particular individual's efficiency, is by no means a special one in the Military Department, and is felt quite as much in all other Departments. The rule of every Department of the Public Service is "Dismissal for inefficiency for the duties of the post," and "Invalid pension for medically certified physical incapacity." Applying this rule to the men recommended by Colonel Macintire, the only result will be "Dismissal." Under such circumstances Colonel Macintire makes a mistake in inferring an omission in the Codal Rules. There should, however, be some rule under which a "Good Service Pension" can be earned. Government would grant such a pension both for Barr and Silladars after 30 years' service, making the period for an invalid pension 25 years in the Barr, instead of 30 years, retaining that of 20 years at present for the Silladar. This will meet all possible requirements, if there may be expected a reasonable amount of concurrence between Military and Medical opinions. Where, however, in rare cases, there should be a difference in these opinions, it would be convenient to have a provision by which Government may get the opinion of a Committee of Officers (including a Medical Officer of course) and accept the certificate of such a Committee as sufficient warrant for the grant of an invalid pension. In all cases of invalidation, the certificate should, of course, specify that the person is physically unfit to perform the duties of his post. This information is not given in the cases now under reference and the question yet remains for enquiry whether the Medical Officers consider these men physically fit or unfit *for their respective duties.*

ORDER.—Before deciding the questions involved in the reference now before Government for orders, Government resolve that the statement sent by the Military Secretary be forwarded to the Senior Surgeon, and his attention drawn to the wide difference between the Medical opinion and even the individual's own statement in each case. The Senior Surgeon will re-examine the individuals concerned and

forward to the Military Secretary, medical certificates embodying the results of such re-examination. If between these certificates and the Military Secretary's opinion, there should be any difference, the Military Secretary will be good enough to convene a Committee of Officers to judge, and report their judgment for the information and orders of Government.

*Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 15th June 1893.

READ :—

The following letter No. 2066—68, dated 9th May 1893, from the Registrar to the Chief Court of Mysore.

I am directed to recommend for sanction of the Government the Establishment of a Subordinate Judge's Court at Shimoga.

2. For some years past, the work (both Civil and Criminal) in the Nagar Division has been on the increase and pressed rather heavily on the District Judge. Mr. Cress brought the fact to the notice of the Chief Court on more than one occasion, and although the Judges were anxious to provide a remedy, deferred the question in the hope that matters would mend in course of time.

3. The accompanying Statement, which this Court called for from the District Judge, exhibits the increase to be steady and further shows that it is not physically possible for the District Judge to cope with it efficiently and afford satisfaction to all parties.

4. There is the additional fact that the District Judge of Nagar has hence-forward to hold Criminal Sessions at Chikmagalur in addition to the Sessions he is now holding at Shimoga and Chitaldroog, in consequence of Mr. Sparkes not being invested with enhanced Criminal powers like his predecessor in Office Colonel Campbell, and this accentuates the necessity for the establishment of the Sub-Judge's Court.

5. The present District Judge, Mr. Tirumalachar, who was consulted, is of the same opinion as Mr. Cress and I am directed to submit for information of Government copies of the letters specified in the margin.

Letter from Mr. Cress, District Judge, Nagar, No. 439, dated 14th September 1891.
Letter from Mr. Tirumalachar, District Judge, Nagar, No. 135, dated 24th March 1893, with two enclosures.

6. The Judges cannot, I am directed to state, overlook the desirability to provide means for administering speedy justice and this, they consider, can be done only by establishing an additional Court at Shimoga.

7. In its financial aspect, the measure does not involve the Government in additional expenditure, as the cost can well be met out of the surplus Judicial receipts.

8. Should the Government receive this recommendation with favor and sanction it, the Sub-Judge at Shimoga will be empowered to take cognizance of only original suits of the value exceeding Rs. 1,000 and up to Rs. 5,000 and hear such Civil appeals as the District Judge may refer to him. He would also be available to dispose of such Criminal work as the District Magistrate may delegate to him during his or his Assistant's absence from Head Quarters on Jamabandy or other work. It is deemed unnecessary to invest the Sub-Judge with any Small Cause Jurisdiction for the present.

9. The arrangement proposed above will give the Sub-Judge sufficient work throughout the year, but should it at any time become slack, he may be occasionally deputed to Mysore to afford relief to the District and Sub-Judges there. On receipt of the orders of Government, the necessary draft Notification will be prepared and submitted.

(Enclosure) No. 439, dated 14th September 1891, from the District Judge, Nagar Division, to the Registrar of the Chief Court.

From my experience of the working of the District Court in this Division, I have the honor o submit for the favorable consideration of the Judges of the Chief Court, and of the Mysore Government, that it appears to me to be absolutely necessary that some relief should be afforded by the re-establishment of a Sub-Judge's Court.

2. To make the whole question quite clear, I append a statement, showing the number of days available for work, after excluding Sundays and authorized Holidays :—

	Sundays.	Other Holidays.	Available for work.
1889...	52	81	232
1890...	52	82	231
1891...	52	80	233

3. As the Sessions work is of primary importance, I shall first touch upon the time required for its disposal. The number of days occupied in the trial of Sessions cases, including the days occupied in travelling during the year 1889, 1890 and the past 7 months of the current year, is shown below :—

1889	103 days.		
1890	84 days.	There was no Sessions at Chitaldroog in September.	
1891 (7 months)	60 days		

4. The number of witnessess examined in Sessions cases during the same period was as follows :—

1889	437
1890	432
1891 (7 months)	283

5. How many cases there may be to be tried at any particular Sessions is of course uncertain as they are committed up to the very last day and the unexpected influx of a larger number of cases than was anticipated with the consequent unexpected prolonging of the trials of Sessions cases is apt to interfere with the arrangements for the disposal of Civil work which may have been previously made, and on the other hand, if too many days are previously allotted for Sessions work, some of the time which can ill be spared in an over-worked Court is wasted or at any rate withdrawn from the period available for Civil work; hence very even and oft disturbed balance has to be endeavoured to be maintained.

6. Excluding the authorized Holidays and the number of days occupied in Sessions work as shown above, the number of days available for Civil and Criminal appellate work is only 128 days.

7. The number of Civil cases and of Criminal appeals is shown below :—

	Original Suits.	Appeals.	Miscellaneous.	Execution cases.	Criminal appeals.
1889	26	219	121	34	46
1890	51	215	179	40	53
1891 (7 months)	32	145	95	22	46

8. Taking the Civil appellate work alone into account, and reckoning the average number of Civil appeals to be 212 a year, the time required for their disposal will be 53 days, reckoning on an average that, in four appeals, arguments can be heard, records perused and judgments written up in *one* day. Even then, no margin is left for the Judge to look up the Law applicable to any particular difficult cases or for unusually prolonged arguments of Counsel in special cases of importance. In fact, this calculation represents only what a Judge can ordinarily dispose of in the routine of a day, and when a complicated appeal concerning family property, accounts, or a land dispute, is argued at great length for a whole day, as is frequently done, these calculations are entirely upset.

9. The number of Criminal appeals, on an average amount to 52 a year, and the period required for their disposal will be 13 days, supposing that four cases may be disposed of in a day, which is *just* possible.

10. Deducting the days required for the disposal of Civil and Criminal appeals, the number of days remaining available for the trial of Original Civil Suits and other Civil work is only *62 days.

* Days available		128
Required for Civil appeals ...	53	
Do for Criminal appeals ...	13	
	—	66
Balance.....		62

11. The duration of the trials of original suits cannot, of course, always be foreseen, and any arrangement for other Civil work made, on the supposition of original suits only taking a particular number of days, is apt to be obviated by the length of time during which particularly hotly contested suits may drag on.

12. I append below the number of days actually occupied in the trials of Original Suits and Miscellaneous and remanded cases :—

1889	39	days.
1890	69	do
1891 (7 months)	41	do

13. The number of witnesses in Civil cases, who attended this Court during the years 1889, 1890 and 1891 (7 months), is as follows :—

1889	...	...	... 344
1890	...	...	... 501
1891	...	...	... 153

14. This of course. does not represent the number of witnesses actually examined, but the dispensing with the examination of some witnesses is purely a fortuitous circumstance depending upon the discretion of Counsel engaged in the cases, and when important private interests are at stake, the Courts must perforce examine all witnesses cited by parties in order that justice may be done to their satisfaction.

15. Time is also required for hearing lengthy arguments of Counsel in important cases, to consult Law books, and to write up Judgments.

16. It is noteworthy that the number of Original Suits has greatly increased since 1889, and that the 62 days available for their disposal will not be sufficient for the trial of even half the number of Original Suits and Miscellaneous cases filed, which have shown a marked tendency to increase since 1890.

17. I may appeal to the experience of the Judges of the Chief Court regarding my ability to get through work rapidly, and I think I may without egotism flatter myself that I can dispose of Judical cases as quickly as any other Judge, and yet I have invariably to write up all Judgments before the Court hour in the morning and during holidays, otherwise the work would be hopelessly involved in arrears, and the constant strain and hurry by no means contributes to the execution of carefully and well finished work. It would, of course, be easy enough to scamp and slur over the work by summarily rejecting appeals, refusing to grant any adjournments, and otherwise hurry on the disposal of cases, but I need not pause to remark how utterly obnoxious such proceedings must be to any right-minded or conscientious Judge.

18. The number of contested original suits disposed of during the years 1889, 1890 and 1891 is as follows :—

1889	...	...	... 12
1890	...	...	... 14
1891	(7 months)	...	... 7

19. But many of the suits shown as uncontested ones were hotly contested, and were only shown as "uncontested" in the returns because they were compromised at the last stage.

20. There are now 24 contested suits pending disposal which would have been disposed of had there been time for doing so, but when there has barely been time for getting through what has actually been done, it is simply a physical impossibility to do more.

21. The number of contested original suits to be disposed of in a year, taking the cases of 1890 as a guide, average 35; and allowing that of the 387 witnesses summond in the original cases in 1890, * 6 witnesses can be examined daily, no less than 64 days are required solely for the examination of witnesses, then add a day for arguments, and another for writing up Judgment in each case, and not less than † 134 days are required for original cases alone, not to mention contested certificate, guardianship and other miscellaneous cases; and if the work goes on increasing in the future as it has done during the past two years, or even maintains the same standard, arrears must perforce accumulate year by year. As this Court only tries original suits above Rs. 1,000 and sometimes of more than a lakh of Rupees. in value and many of them are complicated partnership, Partition and account cases, a good deal more time is really required to hear and dispose of them properly than I have allowed for the mere purpose of calculation. Even on this incorrect basis, however, there are only 62 days, in which to accomplish original work requiring 134 days and if the other work be added and allowance made for unforeseen contingencies, at least 4 *months more would be required*; or in other words, working at the *highest* pressure, it would require 16 months to dispose of the cases filed in the course of a year.

* N. B.—A very liberal estimate, since a single party or witness alone often occupies 2 days.

† Examination of witnesses .....

	Days.
Arguments	64
Judgments	35
	35
	134

22. Moreover, under present circumstances should an original suit have to be unavoidably postponed owing to the prolonging of Sessions work, the parties are put to the heavy expense of paying batta for the re-appearance of all their witnesses on future dates to which the suits may be postponed and the average duration of cases will, under the circumstances, necessarily be increased very greatly.

23. To obviate such an unsatisfactory state of affairs, I would propose that the Government may be moved to re-establish a Sub-Judge's Court at this place with jurisdiction over all 3 Districts of this Division, and with power to entertain and dispose of suits up to the value of Rs. 5,000 and to hear and dispose of such appeals as may be transferred by the District Judge.

The Sub-Judge may also, if considered necessary, be invested with Small Cause powers to a certain limit.

24. I beg to add that the consideration that, by the re-establishment of the Sub-Judge's Court, the work of the District Court will be diminished, should rather be a strong reason for, than an argument against the establishment of such a Court, as the superior Court should be allowed ample time to supervise, direct and control, the actions of the inferior tribunals * by periodical inspections, by a careful examination of records received in appeals, by an exposition of the law in doubtful cases, and by a thorough examination of the calendars and records in Criminal cases for the proper performance of which I can conscientiously state, there is really no time whatever as matters now stand, and considering the remoteness and unhealthiness of this part of the Province, I think that the Judicial tribunals should be numerically greater rather than less than those of the other divisions, so that speedy and efficient work may be accomplished.

* NOTE.—Recent events show how very essential such control is.

25. The existence of a Sub-Judge at the same station as the District Judge will further be useful in cases of emergency, such as the temporary illness of the District Judge, &c.

26. The following table exhibits the income and expenditure, on account of Civil tribunals in this Division during the past 5 years —

	Income.			Expenditure.		
1886	49,259	2	6	41,226	1	4
1887	64,926	11	4	52,692	10	2
1888	69,692	1	6	54,149	1	1
1889	66,413	8	0	53,950	15	5
1890	77,394	1	9	54,891	1	9
Total... ...	3,27,715	9	1	2,56,909	13	9

27. It will thus be seen that, during the last 5 years, the savings to Government amount to the large sum of Rs. 70,805—11—4, averaging Rs. 14,161—5—5 per year, and the establishment of a Sub-Court will entail no additional cost on Government as the surplus funds are amply sufficient for the purpose.

(Enclosure) No. 185, dated 24th March 1893, from the District and Sessions Judge, Nagar Division, to the Registrar of the Chief Court of Mysore.

Adverting to para 2 of your letter No. 1243—114, dated 18th instant, requesting me to submit my proposals regarding the establishment of a Sub-Judge's Court at Shimoga, I have the honor to state as follows :—

2. From the enclosed statement of the Civil and Criminal work of this Court for the past 5 years, it will be seen that there has been a marked increase in both kinds of work, and that, at the end of last year, there was a large number of Civil, Original and Appeal cases pending disposal. Sessions work alone takes up one half of each month, especially the Chitaldroog and Kadur Sessions, and the remaining half of the month has, by experience, been found to be by no means sufficient to get through the heavy Civil work, especially original suits. In not a single instance since I took charge of the Court, has it been possible for me to take up an original suit on the day to which it stood posted for final disposal, simply because, older suits which had been adjourned to such date had to be heard and disposed of before hand

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 15th June 1893.

3. I would respectfully refer the Judges of the Chief Court to my predecessor's letter No. 439, dated 14th September 1891, regarding the necessity which exists for the establishment of a Sub-Judge's Court here, and I beg leave to add that, notwithstanding my short experience of the work of this Court, I am enabled fully to endorse Mr. Cress's views on the matter. I think that, at least 50 original suits, 100 appeals, and an equal number of miscellaneous cases would form the Sub-Judge's share of Civil work in a year in addition to Small Cause suits, should he be invested with Small Cause powers. I have, however, reason to think that, when people come to know that original and appeal cases would be more speedily disposed of than they are at present, there would be a larger number of both classes of cases filed, thereby giving increased work both to the Sub-Judge and the District Judge. Should the Judges, however, consider that this would not give sufficient work for a Sub-Judge, his services could, as stated in the last para of your letter, be utilized for magisterial work and also for the Treasury and the Jail when necessary, a work which I myself did while I served as Sub-Judge at Chitaldroog and Chikmagalur some years ago, without prejudice to Civil work. I consider the formation of a Sub-Judge's Court the more necessary now that the Chief Court has considered it expedient that the Sessions Judge should hold the Sessions for the Kadur District, at Chikmagalur once in three months.

4. The financial aspect of the question has also been discussed in my predecessor's letter above referred to, and I agree with him in thinking that the formation of a Sub-Judge's Court will entail no additional cost on Government. In support of this opinion, I beg to annex a statement showing the income and expenditure of the Civil Courts in this Division for five years ending 31st December 1891. The average amount of savings for a year comes to Rs. 16,000 in round numbers, whereas the annual cost of the establishment of a Sub-Judge's Court, together with the Judge's pay at Rs. 400 per mensem comes to about Rs. 13,000, as per actuals for the year 1889-90 given in the Budget Estimates for 1891-92 for the Mysore District.

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 15th June 1893.

No. 20817—G. 5140, DATED, BANGALORE, 15TH JUNE 1893.

ORDER THEREON.—Without accepting the principle involved in the financial aspect of the question as stated in para 7 of the Registrar's letter, the Government agree with the Chief Court in the opinion that a Sub-Judge's Court is required for Shimoga.

2. After the famine of 1879-80, litigation everywhere in the Province considerably decreased, but since then, with increasing prosperity, there is noticed a preceptible rise in the number of Civil suits filed. It is therefore necessary to some extent to revert to the pre-famine arrangement of more Sub-Judges.

3. The Government sanction the establishment of a Sub-Judge's Court as recommended. The Sub-Judge and his establishment will be available chiefly for Shimoga and also by deputation for work at Bangalore or elsewhere when necessary. The draft Notification promised by the Chief Court will be awaited.

To—The Registrar of the Chief Court of Mysore.

READ the following Letter from the Inspector General of Police in Mysore, No. 3561—419, dated 31st May 1893, to the Chief Secretary to the Dewan of Mysore —

With reference to your letter No 18066—J 1016, dated 2nd instant, I have the honor to submit the following proposals for teaching Surveying, Geometrical-drawing and Photography to the students who are under training for Inspectors' and Jamedars' posts.

2. The Surveying and Drawing course would consist of surveying with chain and prismatic compass and plotting, and of drawing ground plan, elevation and section of ordinary buildings. It will be a three months' course for students with an elementary knowledge of Geometry. The Chief Engineer may, it is hoped, be able to lend a competent Officer for the duties of Instructor on a monthly pay of, say Rs 60 to 80. The hours of study will be from 8 to 10 A. M. (Field Work) and 2 to 5 P. M (Plotting), the time from 7 to 8 A M being given to drill.

3 The instruments necessary for this class are a prismatic compass, chains, offset-rod, tapes, mathematical instrument box and color box, drawing boards and paper. A set of these will cost about Rs. 200 as shown in the margin. The students will be required to purchase their own instrument boxes and drawing and coloring materials and field books.

	Rs	As.	P.
Prismatic compass	80	0	0
Measuring chains (66 feet each) ..	17	0	0
Offset-rod	6	0	0
Metallic tape (66 feet)	8	8	0
Mathematical instrument box	28	0	0
Rolling brass parallel rulers (12 inches)	12	0	0
Drawing board	6	0	0
Do paper	6	0	0
Field books (3)	3	12	0
Color box	15	0	0
Ink and other sundries	19	12	0
Total Rs ..	200	0	0

4. As regards the teaching of Photography, I have had careful enquiries made and I find the "Fallow Fields Facile" hand Camera with the rapid rectilinear lens which takes twelve 4¾" x 3¼" plates, will be the one best suited to our wants. A "Facile" hand Camera costs Rs. 105 at Bombay. The "Rover detective hand" or "Magazine" Camera, carrying 12 plates, which are moved into position by turning one botton, is also favorably spoken of. I would try both and select whichever is better adapted to our purposes.

5. Each District and Sub-Division Head-Quarters should be provided with one Camera and a small number of plates. The process of developing and printing may also be taught to the students who will thereby gain a better knowledge of what is required when taking the likeness.

6. Ten sets of instruments will be required, including one set for the Head-Quarter Police School.

7. I will engage a local Photographer to teach the students. It is expected that the necessary instruction can be imparted in a few weeks. A fee will have to be paid to the Photographer for his labor in teaching the students.

8. It is proposed that all District Police Officers and Head-Quarter Inspectors should be taught to use the Camera. They will be brought down to Bangalore for this purpose

9. The cost under Photography is shown in the margin

	Rs.
Cost of 10 Cameras at Rs. 105 each	1,050
Cost of one Rover detective Magazine Camera (for trial)	78
Plates	25
Chemicals	15
Packing and transit charges	60
Photographer's remuneration for one course ...	100
Total Rs	1,328

10. As regards Carpentry, I beg to state that the class has already been started and is chiefly intended for the men of the Special Reserve Force In addition to the tools purchased for Rs. 79, as reported in my letter No 3150—349 of the 26th April 1893, I have recently purchased a whetting stone at a cost of Rs. 13—8—0. A carpenter Mèstri, on at least Rs. 15 a month, is wanted, and I beg that I may be allowed to engage one as a temporary measure.

11. Early orders are solicited

CAMP No. 372—3, DATED, MYSORE, 16TH JUNE 1893.

ORDER THEREON.—Government are pleased to sanction the proposals made by the Inspector General in the letter above read, and the Comptroller is authorized to place a sum of Rs. 1,528 at the disposal of the Inspector General of Police. The charge to be met from savings in the Police Budget.

DECISIONS OF GOVERNMENT IN REVENUE CASES.

JUNE 1893.

Appeal No. 49 of 1891.

Appellant.	*Vs.*	*Respondent.*
Lakshmappa of Ramagondanhalli, Channagiri Taluk.		Nadigar Rangappa (represented by Mr. Venkataramaiya and six others).

Appellant's father Chintamani Rao who was the Shanbhog of Devarhalli Magani tendered a Razinama in 1861, praying that the office might be registered in the name of his brother, the 1st Respondent, and the Razinama was accepted. In the Potgi settlement of 1881, 1st Respondent retained some villages, and got the office of the other villages of the Magani registered in the names of his sons and nephews. In 1890, Appellant brought a suit for the office which was dismissed by the Deputy Commissioner as barred by the Law of Limitation and also as groundless. The appeal is against this Decree.

2. Appellant's contention is that the suit is not barred by the Law of Limitation, since there is a document executed in *Durmati*—1861 by the 1st Respondent agreeing to give over the office back to the Appellant's father after 25 years. But the Government observe that this document purports to have been executed, not by the 1st Respondent, but by Narsappa, another brother of the 1st Respondent. The document, however, bears the signature of the 1st Respondent which he denies to be his. It is not explained why the 1st Respondent was made to sign a document executed by another individual, and if he really placed his signature, he would have certainly made a remark in it that he also consented to the arrangement. Moreover, from the records it is clear that 1st Respondent was first asked to take up the duties of the office, leaving the registry in the name of the Appellant's father, and that he (1st Respondent) having declined to do duties on that condition, the registry was transferred in his name unconditionally. The arrangement was made in the general partition of property and the Appellant's father and Appellant having assented to this arrangement and not even complained about it in the Potgi settlement which took place in 1880, his right to bring a suit is clearly barred by the Law of Limitation. The appeal is therefore dismissed.

This is virtually an appeal against the order of the Assistant Commissioner, dated April 1889, but the appeal was admitted, as the Petitioner explained that he was not aware till lately of the contents of the orders of Government passed in 1887, under which the Assistant Commissioner passed the order now appealed against.

Petitions No. 834, dated 14th July 1890, dated 28th October 1891 and dated 17th April 1892, from Sannu Row, descendant from the late Amrit Mahal and Killey Cutcherry Bakshi Thippaiya, and deposition dated 12th April 1893 given by Ramaswamy Shastri, Agent of Sannu Row.

Papers ending with the Deputy Commissioner of Hassan's letter No. 422, dated 25th September 1892, and Petition registered No 2000, dated 4th February 1893, from Venkatesaiya, Head Gumasta, Bagayet Cutcherry, Palace, Mysore.

CAMP No. 317-21, DATED, MYSORE, 6TH JUNE 1893.

ORDER THEREON.—For distinguished services rendered to the State, a Jaghir of the marginally noted villages and lands was originally granted to the late Killey Cutcherry Bakshi Thippaiya.

1. Thirunahalli, Hunsur Taluk.
2. Hodeynur, Arkalgud do
3. Karagallu, do
4. Bommeynhalli, do
5. Inam garden land below Karanji Tank at Mysore.
6. Vritti lands in Konanur village in Chamrajnagar Taluk.

2. These properties are now so heavily encumbered with debt, that they will probably be lost to the family unless Government come to the rescue. Sannu Row, on behalf of himself and other present representatives of the family in the first and second branches, and Bagayet Cutcherry Venkatesaiya and Srinivasa Row, the representatives of the 3rd branch of the family, ask for Government help in the shape of a loan equal to about 12 years' income of the aforesaid Jaghir at a favorable rate of interest and agree to repay the debt in such annual instalments as Government may direct, and further agree that, on failure of any single instalment, the Government may assume and retain the management of the properties until the debt is fully cleared. The amount thus lent, is to be applied towards the redemption of the villages.

3. The case is one which calls for Government help on the considerations explained in the Dewan's Memorandum, dated 7th June 1889, annexed to Government Order No. (Camp) 297, dated 15th June 1889. Government are therefore willing to sanction a loan equal to 12 years' net revenue of the properties, repayable with interest at 5 (five) per cent per annum.

4. The village accounts for the three villages Hodeynur, Karagallu and Thirunahalli, which Sannu Row's son Venkat Row and agent Ramaswamy Shastri have produced in the Dewan's office, and those for Bommenhalli, which have been received from the Deputy Commissioner of the Hassan District, show that the net revenues of these villages are as shown below :—

	Rs.	As.	P.
Hodeynur	270	14	8
Karagallu	347	11	11
Thirunahalli	1,141	9	1
Bommenhalli	448	9	2
	2,208	12	10

or Rs. 2,209 in round number. The lands in these villages are all held by raiyats. The Inamdars are stated to have no "*Pannya*" lands in them. The details are shown in the annexed statement marked A, in which also are given details of the manner in which the ownership of these villages rests in the several members of the family. Statement marked B is a genealogical tree explaining the relationship of these members.

Besides these villages, there are:—

(1) An Inam garden land below the Kananji Tank at Mysore, rented for Rs. 200 per annum.

and (2) Vritti lands in the Konanur village of the Chamrajnagar Taluk yielding an annual rental of Rs. 125.

and both together yielding Rs. 325 per annum.

5. Thus villages and these minor Inams yield a sum of Rs. 2,534 per annum, or say, Rs. 2,500 in round number.

6. The Deputy Commissioner of the Mysore District is authorized to advance up to a limit of Rs. 30,000. The Deputy Commissioner will carefully inquire into existing encumbrances, the general nature of which is indicated in the annexed statement marked A, and apply the advance sanctioned to the redemption of the properties above named. These properties should be mortgaged to Government and the Deputy Commissioner should assume their management, the minor Inams being left in the possession of the Inamdars themselves as lessees of Government through the Deputy Commissioner. The amount thus advanced will be repayable to Government with interest at 5 per cent per annum. The receipts of each year will be appropriated first towards the interest due on the outstanding portion of the loan and the remainder towards repayment of the outstanding portion of the loan.

7. The Deputy Commissioner of Mysore will take the necessary agreements in due and effective form, from Sannu Row and the other members of the family concerned. Though these properties are divided and owned separately, yet, it is understood that all the members of the family who own the properties between themselves are willing to join in executing a single document and mortgaging the entire Jaghir to Government till the Government debt is repaid. If, however, the case be otherwise, the Deputy Commissioner will be competent to take separate documents from separate sharers of the Jaghir for their respective shares, advancing in each case not more than 12 years' income therefrom.

8. Government desire that very early action should be taken on these orders and a report submitted as soon as possible. The Deputy Commissioner of Mysore will place himself in communi ation with the Deputy Commissioner of Hassan when necessary.

MUZARAYI.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Muzarayi),—dated 6th June 1893.

READ :—

Docket No. D. 453, dated 21st November 1892, from the Deputy Commissioner of the Bangalore District, reporting upon the petition from Venkatachar and other residents of Channapatna, protesting against the construction of a new Masjid in the said town by one Syed Mohidin, a Mussalman merchant of the place.

READ ALSO :—

The following memorandum by the Muzarayi Superintendent, dated 28th March 1893, on the subject :—

About June 1892, one Syed Mohidin, a Mussalman merchant of Channapatna, began to construct at his own cost, a Masjid in close proximity of a main road in the fort of Channapatna. But on the representation of the Parpattegar of the Varadarajaswami Temple that the road was one through which the Temple processions accompanied by music are usually taken, the Deputy Amildar issued a notice on the 5th July 1892, to Syed Mohidin warning him not to proceed with the work until a special permission therefor has been obtained from the Deputy Commissioner. The work was accordingly stopped.

2. Upon this, there were petitions both from the Hindus and the Muhammadans to the Deputy Commissioner on the subject, who referred them all to the Sub-Division Officer, Closepet, for disposal, with the observation that there was no objection to the construction of the Mosque and that, if it were a new one, it could not have the privilege of stoppage of music before it. The Sub-Division Officer, after instituting an enquiry, passed the following order on the 23rd September 1892 :—

> "The Petitioner is building a new Masjid in the fort. The Deputy Amildar served on him a notice to stop the work, as there would be a clash when Hindu processions pass by it. The Government order that the new Masjids have no right to stop the playing of music passing in the street by the Masjid, has been duly communicated to the petitioner. Now he says that he has no wish that the playing of music should be stopped before the Masjid, which he is going to erect. The Deputy Commissioner's order on the petition, dated 14th July, has also been communicated to the petitioner. He may build the Masjid, but he will not be entitled to have music accompanying Hindu processions stopped before the Masjid."

3. The Sub-Division Officer submitted a further report on the subject to the Deputy Commissioner on the 16th October 1892, which runs thus :—

i. "This morning, I inspected the site at Channapatna fort, where a new Masjid is to be built. Foundations have been laid up for the building. It is situated in the main street where the car procession of the temple takes place, and amidst houses belonging to the Hindus."

ii. "At the time of my inspection, a few Muhammadans who were present on the site said that there was an old Masjid on the site and that they were entitled to the play of music being stopped in front of the new Masjid. This claim is altogether unfounded. The statement of Syed Mohidin who is erecting the Masjid is annexed for information. There had been an old Ashurkhana at the place and not a Masjid. At no time music had been stopped while passing by the Ashurkhana."

iii. "The Government order that the playing of music will not be stopped before the new Masjid in question has been duly communicated to the Hindus as well as the Muhammadans, as the Deputy Amildar reports by beat of Tom Tom and by written notices, but the Muhammadans appear to have refused the written notice. The refused notice with the Amildar's report is herewith submitted."

iv. "The erection of the building is allowed on the distinct understanding that the Muhammadans will not be entitled to interfere in any way with the temple processions passing by the new building. The Police will watch their future conduct and legal steps will be taken, if necessary."

4. The above order was concurred in by the Deputy Commissioner, Mr. Mir Shujayet Ali.

5. Meanwhile a petition was received in the Muzarayi Department of the Dewan's Office, om the merchants and others of Channapatna, representing that, if the construction of a new asjid on a road used for Temple processions be permitted, much disturbance would ensue. This petition was referred to the Deputy Commissioner for report, and the construction of the Masjid was ordered to be stopped, pending final disposal of the question by the Government.

6. On the 25th instant I proceeded to Channapatna and inspected the locality. A sketch of the new Masjid is attached hereto for easy reference.

7. The new Masjid measures 30 x 25 feet and its walls have come up to 12 feet high. A small portion of the wood work of the roof has been fixed. The terracing has not been started as yet The Temple processions after leaving the Temple *C* proceed along the roads No. 1 and 2 and then along road No. 3 where the new Masjid under construction is situated and return to the Temple by road No. 4. Seeing that the 4 streets indicated in the plan are particularly Hindu quarters, the number of Hindu houses being 6 times more than Muhammadan ones, it would have been better if the construction of the Masjid had been at once stopped at the very commencement for want of special permission of the District Officer as required in the late Chief Commissioner's Circular No. 2528—72, dated 22nd August 1871, which clearly lays down,

> "that no buildings intended to be used as places of worship by any class of the community, should be erected on any public street or thoroughfare in any town or village without the previous sanction of the District Officer in each case"; and that "the old order forbidding the use of music by religious processions when passing to a place of worship of another persuasion, will not be held applicable in the case of any building of the nature under advertence, that may be hereafter erected in a public street or thoroughfare without due sanction."

8. But unfortunately the building has progressed to some extent and the owner or rather Syed Mohidin, who is erecting the Masjid for the benefit of his community, must have already spent on it 4 or 5 hundred rupees. I would not therefore recommend its removal, but will impose upon him certain conditions, to which I would refer later on.

9. Under the terms of the late Chief Commissioner's ruling above adverted to, the Muhammadan community cannot certainly claim the privilege of stoppage of music in front of the Masjid in question, the same having been constructed subsequent to the date of the said ruling. But in process of time, it is possible the age of the Masjid may be contested and disputes of violent character may consequently arise, leading not improbably to acts endangering public tranquillity. To prevent all such disputes in future among the two communities, I would propose that Syed Mohidin be called upon to comply with the following conditions before he can be allowed to proceed with the execution of the remaining work of the building :—

Firstly.—A tablet showing the year of construction should be fixed in a conspicuous part of the Masjid so that the exact date of its construction may not be contested on any future occasion.

Secondly.—Its main entrance should be shifted from road No. 3 to the lane connecting the main roads No. 1 and 3. The Masjid, as now situated, fortunately faces east, *viz.*, towards the lane. There can therefore be no possible objection to the opening of the gateway also in the same direction. To be more clear, the opening *F* on the main road No. 3 where a gateway is now intended to be set up, should be walled up and the main entrance opened either at *G* or *H* in the lane as may be found convenient. If the latter place be preferred on the ground that it would be directly opposite to the Masjid, the Hindustani school *B* a small tiled building within the Masjid enclosure, may be removed to *J*.

10. If the main entrance be opened towards the lane as now proposed, the question of stoppage of music when Hindu processions move along the main road No. 3, will scarcely arise on any future occasion.

No. 914—Muz. F. 58-92, dated, Bangalore, 6th June 1893.

Order thereon.—After consideration of all the circumstances connected with the construction of the Masjid, the Government are of opinion that, in according sanction therefor, the District Officer did not exercise a wise discretion. By the orders of the late Chief Commissioner's No. 2528—72, dated 22nd August 1871, the District Officer has the power to give sanction to the erection of a place of worship on any public street or thoroughfare, but it is his duty to exercise this power in such a way that at no future time could there arise any occasion for dispute and bad feeling between the various sections of the community. It is true that the permission given to build the Masjid in this case is upon the express condition that a procession of any other religion may continue to play music when passing in front of it. This condition may come to be forgotten and its existence called in question at some future time, and there would then arise disputes and consequent unfriendly feelings between the Hindu and Muhammadan sections of the community. Supposing that the prescribed condition is never called in question but is always strictly enforced, the very fact that the condition exists and is enforced would be a source of constant irritation to the Muhammadan section. In matters of religion, people's feelings and sentiments are never guided by strict reason or any consideration of the rights and obligations involved. If a procession

belonging to a person or persons of one religion plays music before a place of worship belonging to another religion, the act is regarded by every one belonging to the latter religion as a wanton act of intentional disrespect to his religious feelings, and his anger will not be the less, because the act was done in exercise of an existing right. It is therefore most undesirable that the District Officer should ever create a right so obnoxious in itself and inimical to the growth and maintenance of friendly feelings between the various sections. The Government are sure that no enlightened member of any community whatsoever can feel any satisfaction in possessing a right, the exercise of which is necessarily attended with pain to the feelings of his neighbours.

2. Under such circumstances the Government have no hesitation in disapproving of the permission which has been given to the construction of the Masjid in question, but, as unfortunately the building has already considerably advanced, the Government think it undesirable to direct its removal to a more eligible place. It will be sufficient for all interests, if the gate be placed on the east so as to open into an existing side-street instead of on the south as now proposed to open into the main road on which, Temple and other Hindu processions usually pass. The Deputy Commissioner will immediately cause the alteration of gate as above. This alteration will cause no inconvenience whatever to any party and affords the best solution of the conflicting questions which have been raised. A plan showing the alteration above ordered will be forwarded to the Deputy Commissioner by the Muzarayi Superintendent.

The following extract from para 9 of the Dewan's Inspection Notes, dated, (Camp) Mulbagal, 17th July 1887 :—

There is only one Muzarayi Institution of any magnitude in Mulbagal—the Anjaneya temple in the Kasaba which is richly endowed. There was considerable abuse of the trust money, and the public of Mulbagal and the neighbourhood have to thank the Deputy Commissioner for the energy displayed in stopping the abuse and ensuring a fair annual expenditure in repairing and improving the temple.

The following letter No 3570—868, dated 16th May 1893, from the Deputy Commissioner of the Kolar District :—

With reference to para 9 of the Notes by the Dewan, dated the 17th July 1887, published with Proceedings No. 2682-94—90 of the 6th August 1887 relative to the abuse of the trust money belonging to the Anjaneyaswami temple at Kasaba Mulbagal, I have the honor to state that the Inam villages attached to the Institution have been duly surveyed and settled and it is intended to take up the same with the temple for management by the Muzarayi Department.

2. I herewith submit for information, copy of the Amildar's report No. 976, dated the 16th ultimo, together with copies of its enclosures showing the results of the Survey Settlement of the villages in question as well as the present and proposed income and expenditure of the temple. It will be observed (*Vide* marginal statement) that the Survey Settlement has resulted in a net increase of Rs. 710—14—5 over the average income of the villages for the past 5 years, and there is besides an unoccupied area of 363 acres and 2 guntas with an assessment of Rs. 561—8—0 likely to be taken up for cultivation in course of time.

3. The temple is in a dilapidated state and in need of repairs for which there are no funds available, the archaks, &c., having misappropriated the income of the Inam villages and neglected the maintenance of the building.

4. It is therefore proposed to revise the scale of establishment and other charges connected with the temple so as to effect an annual saving to be utilized for the necessary repairs, &c. Provision has been made for cash payments to all the servants of the temple whose connection with the Inam villages be entirely severed and the arrangement has been agreed to by the parties concerned as will be seen from the enclosed Mutchalika, dated the 17th April 1893.

5. The accompanying statement prepared by the Amildar under the personal instructions given to him by me during the current year's Jamabandi of the Taluk shows that the annual income of the temple from the various sources therein enumerated has been estimated at Rs. 1,896 and the expenditure fixed at Rs. 1,552, leaving a probable annual balance of Rs. 344 which will be available for the requisite repairs and the like. The scale of pay &c, has been fixed by me after due consideration of the existing state of things and will answer all purposes.

PUBLIC WORKS.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Public Works Department),—dated 6th June 1893.

READ:—

(1) Letter No. 5780. dated 10th May 1893, from the Comptroller of Mysore and (2) Note, dated 10th idem. by Officiating Public Works Secretary regarding Medical Certificate to accompany application for invalid pension, to be submitted by Mr. T. Inman, Executive Engineer, (Local) now on furlough in England, in the event of his deciding to retire from the Mysore Public Works Department.

No. 2442-43—412-13, DATED 6TH JUNE 1893.

ORDER.—The "Mysore Service Regulations" require Medical Certificates of unfitness for further service, in support of applications for invalid pension, to be obtained from the Medical Officers connected with the Mysore Government; but this being impracticable in Mr. Inman's case owing to his absence from the Province, the Darbar sanction, as a special case, the acceptance of a Medical Certificate signed by any two qualified Medical Officers in England, where he is at present on furlough.

W. McHUTCHIN,
Offg. Secretary to Govt.,
Public Works Department.

To—The Comptroller of Mysore.
Mr. T. Inman.
